

## Code of Conduct

ASNP members commit to:

1. Adhere to the standards and principles of the Ethics Charter and comply with ASNP internal regulations.
2. Honesty and integrity in the context of their professional activity.
3. Apply the principles of "Know Your Customer / Counterparty" (KYC) to their supply chains. These principles encourage companies to verify, to the extent that is possible, the identity of all organisations with which they deal and with a clear understanding of their commercial relationships.
4. Present merchandise with transparency and authenticity.
5. Not engaging in unfair or disloyal practices within the context of their professional activity.

In the event of non-compliance with the ASNP code of conduct and/or regulations or in the case of a dispute, members agree to submit to the decisions of the mediation and arbitration committee. A Mediation between the parties can be considered beforehand.

Admitted at the General Assembly September 2, 2020
